

AVG ANTIVIRUS BUSINESS EDITION

- ✓ Ransomware, virus, and malware protection
- ✓ Safe surfing for employees
- ✓ Data & identity security
- ✓ Always up-to-date
- ✓ Free phone support
- ✓ Remote management

Powerful new features that protect your business

AVG® AntiVirus Business Edition is working smarter for you. It keeps your critical business and customer data safe from the latest ransomware, virus, and malware and keeps your employees safe online.

Protect against zero-day attacks with CyberCapture

CyberCapture isolates unknown files in a safe environment and establishes a two-way communication channel with you and our team of expert security analysts.

Scan faster with our new Scanning Engine

The scanning engine implements our most advanced algorithms that shorten scanning times so customers can work more efficiently and effectively.

Secure deletion with File Shredder

File Shredder securely deletes data to help prevent unintended recovery.

Secure your most valuable files with Data Safe

Create an encrypted, password protected virtual disk on your system and add another layer of protection for your folders and files.

Protect against the newest malware with Outbreak Detection

We use advanced artificial intelligence to proactively identify malware samples that haven't yet been catalogued by our ThreatLabs team.

Protect from the quick click with Online Shield

Online Shield is improved with cloud-based detection to identify dangerous downloads faster than ever. Check files before you download them to help ensure they are safe and you stay protected.

AVG ANTIVIRUS BUSINESS EDITION

Business never slows down. Neither do we

Stop threats and keep your business moving. With AVG's award-winning security products, you'll protect your business from the latest viruses and threats.

Save time and focus on your business

AVG Business AntiVirus minimizes security distractions so you and your employees can focus on driving your business forward.

Keep employees safe online with Network Antivirus

Free your workforce to surf, search, and download with confidence. Smart prevention technology checks every web page and alerts you if it detects anything suspicious.

Keep customer information safe from hackers

Maintain your integrity as a reliable business partner by ensuring all your customer data is kept private and all online transactions are conducted safely.

Cloud Management Console

The AVG Business Management Console makes it easy to deploy antivirus protection to multiple devices, manage all devices from one platform, schedule regular scans, and quickly add more devices.

Secure and manage your computers from a single console

Manage your AVG Business AntiVirus software remotely on your business network and stay in control no matter where you are. Easily deploy and manage your network antivirus software on your PCs and laptops.

Free phone support

Breathe easily knowing that AVG experts are always a phone call away.

Smart, actionable alerts

Detects and alerts you to problems that you can address easily from the simple dashboard.
